

Posi-Pour 2000

“Portion control for the new millennium”

1. Before using the pourer, soak in **LUKEWARM**, soapy water for 10 minutes, then rinse in cold water
2. To install, wet cork and simply push the pourer straight into the bottle. To remove, twist and pull straight up out of the bottle.
3. Hold bottle at approximately a 45 degree angle when pouring. Do not “whip” or “baby” the bottle into pouring position. Use a natural pouring motion.
4. When the bottle is low, allow liquor to reach the neck of the bottle before tilting to the 45 degree angle. Bring the spout to the lip of the glass, then raise the tail of the bottle.
5. To wash, soak in **LUKEWARM**, soapy water. Rinse in cold water. For best performance with, wash weekly. When used with cordials or syrups, wash nightly.
6. If cork fins flatten, run corks under hot water for approximately 30 seconds, then run under cold water. This will straighten the fins.

**DO NOT RUN THROUGH DISHWASHER
OR WASH IN EXTREMELY HOT WATER**

NOT ACCURATE WITH WATER

Available in 15mL & 30mL
Various colours available including clear,
black, fluoro red, fluoro green and fluoro blue
